

EA660

6" 5G Rugged Smartphone

5G & WLAN 6E | 6" Gorilla® Glass 7 & 630 nits Display | 10m Barcode Reading Distance

Featuring an advanced Android 13 operating system and 5G & WLAN 6E wireless communication, the EA660 offers real-time data collection, a seamless working experience, and enhances stock management efficiency in industries such as retail, hospitality, logistics, and healthcare.

Powered by Android 13 OS with GMS & AER Certified

The EA660 is a 6-inch Android 13 rugged smartphone equipped with an advanced 64-bit Octa Cores CPU capable of reaching speeds up to 2.4 GHz. It effortlessly handles demanding tasks while ensuring smooth multitasking. With the distinction of Google Certification, encompassing Google Mobile Service (GMS) and Android Enterprise Recommended (AER) endorsement, the dual certification assures a secure and efficient business environment.

Seamless and Connectivity via Wireless Communication

Featuring 5G connectivity, wireless WLAN 6E with fast roaming and Bluetooth® 5.2 for real-time data collection, user can scan the item and instantly connect to the backend system to find out the quantity in stock or make an online order for customers. The EA660 delivers a seamlessly work experience and improves productivity for various applications, making it faster downloads and uploads at user's fingertips on the most reliable networks for your business.

Premier Barcode Reading Distance

Featuring powerful 1D/2D scanning capabilities and utilizing premier 2D barcode scanning technology, the EA660 rugged smartphone offers an optional engine that enables barcode reading at distances of up to 10m with 5G and WLAN6E connectivity. This provides the perfect solution for the retail and logistics environments, allowing users to enjoy high-performance barcode reading, whether it's from a short or long distance, and optimize their work efficiency.

Durable design and flexible Options

The EA660 enhances industrial durability with features such as simultaneous IP65 and IP67 dustproof and waterproof ratings, along with resistance to falls from a height of 1.5 meters (1.8 meters with boot case). It has various accessories such as RFID gun grip and cradles and also supports unitech software solutions, SDKs, MoboLink, and 3rd party MDM solutions such as VMware, SOTI, Ivanti Wavelink.

Features

- Android 13 OS with GMS & AER Certification
- Wireless Communication: 5G & WLAN 6E
- All-In-One functionality: 2D Imager, NFC, 5MP front camera, and 16MP rear camera
- Rugged: Corning® Gorilla® Glass 7(Victus) touch display, IP65 & IP67 rated, and 1.5M drop (1.8M with boot case)
- Premier barcode reading distance : Up to 10M (Optional engine)
- Long-lasting removable 5000mAh smart battery
- Support unitech software solutions, SDKs, MoboLink, and MDM solutions

Development Tools

Unitech SDK

Scanner SDK

RFID SDK

Unitech offers a number of SDK toolkits for developers to write apps that can interact with the unitech devices for the mobile, scanner, and the RFID product lines.

Device Management

Staging and Management

MoboLink

Android Enterprise ready EMM for monitoring device health and managing apps, configs and files.

StageGO

Barcode-based device staging utility offering hundreds of script commands for you to work with.

OEMConfig

If you are using a third party EMM, OEMConfig will allow those EMM solutions to configure unitech specific settings on the device.

Enterprise Launcher

Secure your devices by kiosk them with Enterprise Launcher. Block access to the Android system and only allow limited number of apps to be run.

Battery info

Monitor advanced Battery health and manage the battery replacement cycle. Use with MoboLink to get real-time battery health alerts delivered to your phone.

Software Update

Check and install software updates online. To let a device always stay up-to-date, setup the device to automatically check and install for updates on boot up.

System Update Center

Check and install firmware updates via FOTA. You can update the firmware via online FOTA server, or by using a OTA ZIP file placed in the internal storage.

Unitech Scanner Utility

An Android application which helps users connect, configure and use a supported Unitech Bluetooth scanner.

Productivity and Utilities

USS

Configure all scanner settings with friendly user interface and enable the service to make scanning data as keypad input.

USS Profiles

Capture barcode data using the device camera and send the data to your applications as keyboard inputs.

USS Camera

KeyRemap

Reprogram physical buttons to act as another key or to launch an app.

WLAN Advanced

Configure advanced WLAN settings such as power saving mode and roaming parameters.

NTP Server Settings

Customize the NTP server setting to keep your device date and time synchronized.

UNote

A simple text viewer and editor for use in your work flows.

Startup

Auto-run apps when device boots up.

TagAccess

For versatile functions of RFID command via integrating with Unitech RFID Readers.

Logger

An easy and fast way to get logs from a device.

Enterprise Keyboard

Enterprise Keyboard gives various methods for user to input data to enhance efficiency and productivity.
